EDAC TECHNOLOGIES REPORTS RECORD QUARTERLY OPERATING PROFIT

FARMINGTON, Conn., April 30, 2007 – EDAC Technologies Corporation (OTC Bulletin Board: EDAC.OB), a designer and manufacturer of tools, fixtures, jet engine components, injection molds and spindles, today reported record results for the first quarter of 2007.

Sales for the first quarter of 2007 were \$12,316,000 and net income was \$781,000 or \$0.16 per diluted share, versus sales of \$9,596,000 and net income of \$293,000 or \$0.06 per diluted share for the first quarter of 2006. Income from operations increased to \$1,430,000 in 2007 from \$611,000 in 2006. The first quarter of 2006 included costs of \$226,000 associated with expansion of our manufacturing capacity by approximately 24,000 square feet and other non-recurring expenses.

Dominick A. Pagano, President and Chief Executive Officer, said, “We are very pleased with the continued strong results. Our operating profit for the first quarter was the highest in our history. Total backlog increased from \$28,800,000 at the end of the fiscal 2006 to \$31,600,000 at the end of the first quarter. As recently announced, our first quarter sales were our highest quarterly sales in six years. Sales increased \$2,751,000 in our Precision Aerospace product line for the first quarter 2007 compared to the first quarter 2006. Our 2007 capital plan includes over \$3.7 million in machinery and equipment additions to increase productivity and production capacity. Through the first quarter we have invested over \$579,000 in machinery and equipment and have made commitments for an additional \$1 million. We’ve made these investments to meet our sales backlog requirements and to further position us for future growth. We will continue to pursue opportunities that will strengthen EDAC for the long term.”

About EDAC Technologies Corporation

EDAC Technologies Corporation is a diversified manufacturing company primarily offering (i) design and manufacturing services for the aerospace industry in such areas as jet engine parts, special tooling, equipment, gauges and components used in the manufacture, assembly and inspection of jet engines (ii) high-precision fixtures, gauges, dies and molds and (iii) the design, manufacture and repair of precision spindles, which are an integral part of numerous machine tools found in virtually every manufacturing environment.

Cautionary Statement Regarding Forward Looking Statements - This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The Company uses words such as “plans,” “seeks,” “projects,” “expects,” “believes,” “may,” “anticipates,” “estimates,” “should,” and similar expressions to identify these forward looking statements. These statements are subject to risks and uncertainties and are based upon the Company’s beliefs and assumptions. There are a number of important factors that may affect the Company’s actual performance and results and the accuracy of its forward-looking statements, many of which are beyond the control of the Company and are difficult to predict. These important factors include, without limitation, factors which could affect demand for the Company's products and services such as general economic conditions and economic conditions in the aerospace industry and the other industries in which the Company competes; competition from the Company's competitors; and the Company’s ability to enter into satisfactory financing arrangements. These and other factors are described in the Company’s annual and quarterly reports filed from time to time with the Securities and Exchange Commission. In addition, the forward-looking statements included in this press release represent the Company’s expectations and beliefs as of the date of this release. The Company anticipates that subsequent events and developments may cause these expectations and beliefs to change. However, while the Company may elect to update these forward-looking statements at some point in the future, it specifically disclaims any obligation or intention to do so.
